8. Remark

- Norland pays out 64% of profits to distributors (Silver member or above). There's Elite package for people to try out the product, but won't be benefited as much as the regular memberships. There're 60 days after you join in to go upgrade by paying the difference and getting products accordingly.
- We are paid generous bonuses on our first 2 signups on 1st level, and the first 2 signups on the 2nd level. One on each leg, both levels. As Silvers, we receive \$320 on each level when we sign in 2 people...total \$640. (Start-up bonus is paying weekly)
- This is the pay when we are Silver. When we are Gold and sign up golds, we receive \$640 each level. When we are able to bring in members for \$240, you may want to first bring in your friends who have the \$800 to outlay to benefit from the bigger bonuses on first two levels.
- We receive 11% of sales volume each week occurring in our shorter leg...A or B. (Group bonus is paying weekly)
- Unilevel Commissions on our Personal signups and people below them, and you need to have at least two personal signups to be qualified. See Commission chart. (Leadership bonus is paying monthly)
- Repeat Order Commissions from orders 12 generations below us. We start receiving this pay after we have earned 80 points or dollars (which equals 5% of our total pay we have earned). This amount is placed in our repeat order account which we use toward future orders, rather than laying out more cash. A maximum of \$150 is placed in this account monthly when we are earning larger amounts. (Repeat bonus is monthly)
- We receive 20% in commissions of our total Retail Sales PV(0.8) we place as orders in our back office to be sent to anyone, with their shipping address and credit card data. \$40 per bottle, 2 bottles per box.
- We receive Product Vouchers which total to 25% of our amount earned for personal signups. This amount is used to receive more product.
